December 1, 2022

**Technology Plus, Inc. Brings Technology Services to The RMH Group**

Lakewood, Colo.— The RMH Group (RMH) is pleased to announce their newly formed acquisition and partnership with Technology Plus, Incorporated (TPI).

This partnership, effective December 1, 2022, brings together two firms that highly complement each other and will be able to enhance their services by being able to offer more to their clients.

Howard Feingold, President, and Founder of TPI states, “We have worked together on projects over the past 30 years, and now as one team, can position our client’s projects for today and the future. Our team will bring clients an integrated solution for green and smart buildings, campuses, and districts.” Now a true MEP/T firm, the company will be able to provide mechanical, electrical, and plumbing services as well as technology design. MEP and technology integration will allow the firm the abilities to bring together experience and expertise by complementing each other, allowing clients a more seamless experience and add additional value to their projects.

RMH, founded in 1961, and TPI, founded in 1991, have over 90 years of combined experience. Headquarters will remain in Lakewood, Colorado with TPI employees joining the team on Colfax Blvd. The addition of TPI, has expanded the company beyond Colorado and Arizona, and now also has an office in California. Clients will continue to receive the same service from the team and enjoy the benefits of the additional capabilities provided.

The partnership allows for more growth and benefits for the staff as well. “At RMH, our employees are our biggest asset. TPI and RMH company cultures and values align well. We are both excited for this partnership and excited for the opportunities we bring to each other,” said Mike Watkins, RMH President.

The RMH Group is a mechanical and electrical engineering and industrial facilities design firm based in Lakewood, Colorado, with an office in Phoenix, Arizona and now, Los Angeles, California. RMH serves clients throughout the U.S. as well as internationally, and is a recognized leader in low-energy-use and high performance building system design. RMH specializes in highly technical design for public and private sector markets.

TPI specializes in technology convergence and collaboration, positioning clients to meet short-term needs and long-term goals. TPI provides clients with an unbiased needs analysis with system solutions and equipment recommendations and keeps abreast of new technologies as they emerge, providing clients with the latest technological innovations.
